

DIMPLE K B

9483083145 | dimplekb3@gmail.com | Bangalore, Karnataka

CAREER OBJECTIVE

Recent B.E. graduate in Artificial Intelligence & Machine Learning (2026) with hands-on experience in data science, machine learning, computer vision, and cloud-enabled AI solutions. Seeking an entry-level role to apply Python, ML, and AI skills to build scalable intelligent systems.

INTERNSHIP

Data Science & ML Intern | Feb 2026 - May 2026

AIIMS Technology Council | International Institute of Medical Science & Technology Council | Engineers Council of India

- Built FitFusion, a computer vision fitness platform using Python, OpenCV, and MediaPipe for real-time posture analysis and exercise rep classification across the full ML lifecycle.
- Developed an ASD screening classifier (Random Forest / SVM) with scikit-learn; improved accuracy via feature engineering and cross-validation on behavioural datasets.
- Designed an automated Smart Attendance System using face detection and facial recognition (OpenCV + face_recognition), with MySQL backend and CSV export.
- Applied NumPy, Pandas, and Matplotlib for data preprocessing, EDA, and visualisation across all projects.

EDUCATION

B.E. - Artificial Intelligence & Machine Learning | 2026

East West Institute of Technology, VTU | Bangalore

CGPA: 8

PACE ULTRA MODERN PU COLLEGE (2020-2022)

Karnataka State Board - PCMB

Percentage: 90.3%

BGS CENTRAL SCHOOL (2020)

CBSE Board

Percentage: 88.2%

TECHNICAL SKILLS

- **Programming:** Python
- **AI/ML:** Machine Learning, Deep Learning basics, Linear Regression, KNN, Computer Vision, Face Detection, Facial Recognition, Posture Analysis, Networking Fundamentals
- **Cloud Computing & AI Platforms:** AWS Cloud Foundation, Google Colab, Jupyter Notebook, cloud-based AI model development and deployment concepts
- **Libraries & Frameworks:** OpenCV, NumPy, Pandas, Scikit-learn, TensorFlow/Keras basics
- **Databases:** SQL, MySQL
- **Operating System:** Linux
- **Web & Tools:** Web Development frameworks, AIML concepts

PROJECTS

- **Major Project: FitFusion:** AI-powered smart fitness platform for real-time exercise tracking and posture analysis using computer vision.
- **Mini Project: Autism Spectrum Disorder Detection & Support System** - The use of machine learning (ML) and deep learning (DL) to develop objective, rapid, and scalable ASD screening tools.
- **Mini Project: Smart Attendance System using Face Recognition** - AI-enabled attendance management system using face detection and facial recognition algorithms.

CERTIFICATIONS

- Web Development - RINEX [Google (Education partner)]
- Artificial Intelligence Fundamentals - IBM Skillsbuild
- Web Technologies, Cyber Security, Java Programming, Data Science using Python - Ethnotech Academy

WORKSHOPS/HACKATHONS

- Attended workshop on "Introduction to AI & ML"
- Participated in college-level Hackathon

SOFT SKILLS

- Communication Skills • Problem Solving • Team Collaboration • Time Management
